

A NEW YEAR GREETING MARILYN & GUY

Another eventful year for us and our Family! Granddaughters **Jessica (6 1/2) & Ashley (4)** and **Kimberlee (6) and Kaitlyn (1)** are all active and well, and have been able to be with each other several times during the year, including some family dinners at **Cheryl & Scott's** home. **Jessica** and **Kim** are in school, and **Ashley** continues at preschool-- all seem to enjoy school and learning. **Kaitlyn** is walking and trying to talk, and is obviously fond of her big sister—she tries to emulate Kim's gymnastic exercises!

Marilyn & Guy started 1992 with a trip to Arizona and California, with a trip to Japan later in the year. The latter featured their first visit to Hokkaido, the northernmost island, and the "last frontier" in Japan. A repeat trip to Arizona and southern California in early January will be pleasant start for the New Year!

Carmon has been on sabbatical leave of absence this fall, allowing him the time to concentrate on his art—**Susan** continues to sell her

hand-made paper jewelry and work in the parent's group at **Jessica's** school.

Sandra has taken a position at the Birth Place (where **Kaitlyn** was born), as a delivery nurse, and to make home visits to the new mothers and their newborn. **Neil** continues his work as a private investigator, with the hope of starting his own business sometime soon.

Cheryl & Scott continue to open their home for a variety of family gatherings, especially during the summer when their pool seems to be a big attraction. **Scott** had his first (and maybe last) experience at deer hunting this year—he didn't see any live deer, but did get to haul his father-in-law's prize out of the woods!

Marilyn has taken on the responsibility for floral arrangements in the sanctuary, seasonal decorations and landscape design for her church. That, plus her continuing teaching in Japanese flower arranging, and her granddaughter—sitting keep her (almost) out of mischief.

Guy continues as Department Head of Chemistry, during a time of decreasing national resources and increasing institutional need—good timing what? In their spare time, **Marilyn & Guy** have tried to organize the available information on their family trees—with considerable help from their mothers, aunts, uncles, cousins, etc. Copies will be provided if you are interested and haven't already received same—just ask!

Both of our mothers (alias grandmothers, alias great-grandmothers) were able to spend some time in Pittsburgh and environs again this year, and both lead active lives in their own homes. **Marilyn's** mother has moved into new quarters in Sun City, providing her with dining when wanted, and relieving her of the need to maintain a house.

Just room to wish you a

**HAPPY & HEALTHY
1993
AND BEYOND**
