Marilyn & Guy started 1993 with a trip to Arizona and California, with a weekend at a mountain resort in Colorado and an auto-trip to Annapolis and Baltimore later in the year; the latter included an unexpected stay at **Chick and Ruth's Delly**, an Annapolis restaurant & hotel highlighted in an August 1988 National *Geographic* article (pp 188-9).

Carmon & Susan have stayed close to home this fall, awaiting the arrival of their latest.

Carmon has accepted the Associate Chair of the Art Department; he is going to Europe to teach some courses in March. **Susan** continues to work in the parent's group and as *Storyteller* at **Jessica's** school.

Scott is learning a variety of skills, working outside in new construction, and in the cabinet-shop.

Marilyn has become a Deacon of her church, continuing her responsibility for floral arrangements in the sanctuary, seasonal decorations and landscape design for her church. That, plus her teaching in Japanese flower arranging, and her granddaughters—sitting keep her (almost) out of mischief. **Guy** continues as Department Head of Chemistry. Meetings took him to Spain and Crete this summer for two weeks, among several other short trips.

Marilyn's mother **Mary** has moved into new quarters in a condo in Pittsburgh, within sight of 633 Cascade! The condo is located next to the church where Scott and Cheryl were married. This will be her first Christmas with her great-grandchildren, and the first with the rest of in a long time. Guy's mother **Wilma** will be joining us for the year-end holidays for the first time in a long while.
